### MRS. GEIGER RE-ELECTED LIBRARIAN OF CARNEGIE LIBRARY

The annual meeting of the subscribers of the Library association was held yesterday afternoon at 5:30 o'clock at the library, about 20 being present. At this time reports were submitted from the president and treasurer and librarians and officers were elected as follows:

Mrs. Susan W. Geiger, librarian; Miss Hortense Morris, assistant librarian; J. A. Brock, president and treasurer; Mrs. George Prince, vice president; Miss Margaret Evans, secretary.

The following board of trustees was re-elected: Mrs. George E. Prince, Mrs. J. R. Vandiver, Miss Margaret Evans, Miss Varina Brown and Messrs. H. H. Watkins, J. H. Dodgery, A. M. Sharpe, J. L. Sherard, E. C. McCants and J. A. Brock.

The meeting was presided over by the Rev. D. W. Dodge and after the reports were read and accepted, other business was entered into.

Mrs. J. R. Vandiver moved that the librarian be instructed to purchase all books pertaining to South Carolina history that she deemed advisable, especially those which are now fast going out of print. This was adopted.

Dr. John E. White made a short talk and referred to the library as being a great asset to Anderson college, in that the students have access to it just the same as the citizens of Anderson. ## MEMBERS COMMITTEE TO ATTEND HEARING

### WILL GO TO COLUMBIA NEXT TUESDAY AFTERNOON

Mr. W. W. Sullivan, chairman of the transportation committee of the chamber of commerce, and Messrs. D. A. Ledbetter and W. F. Farmer, other members of the committee, and probably others, will go to Columbia next Monday afternoon to be present on Tuesday at a rate hearing which is to be held before the railroad commission.

This hearing is called by the railroad commission of South Carolina to take final action on petition of railroads now before the commission, asking for elimination of South Carolina commission exception sheet and substitution of regular Southern classification w/o certain commodity class of rates to take care of special ratings in South Carolina now provided for by the commission exception sheet.

The movement is a general one throughout Southeastern states and is in line with efforts of carriers to put in effect a uniform classification. The hearing will no doubt be largely attended by shippers and representative tariff men, as it contemplates many changes in intrastate rates.

Under present adjustment of freight rates many through rates are higher than the aggregate of local or intermediate rates, and recent decisions of the intrastate Commerce commission have in the main been against continuing in effect any through rates which exceed combination of local or intermediate rates, the most notable perhaps being on 4th section, application No. 461, in which various carriers asked permission to continue in effect through rates from Louisiana points to Texas points which were higher than aggregate of local rates between said point. The commission denied the application.

The defendant railroad classification and the numerous state classifications now in effect make the construction of interstate freight rates very complicated and some action on the part of railroads to simplify their rate construction and make their tariffs conform to an act to regulate commerce is urged by the interstate commerce commission and sooner or later must come.

Whether the elimination of state excepted sheets will remedy the evil is a question to be decided and the commission and shipper should see that their interests are conserved in the proposed changes.

## RESIDENT HUNTERS MUST HAVE LICENSE

### NOTICE IS ISSUED BY H. S. TRESCOTT, CO. GAME WARDEN

The following has been received from H. S. Trescott, county game warden, with the request that it be published:

At the 1916 session of the legislature this county was included under the provisions of the resident hunters license law. This law requires all hunters to procure a license in order to hunt. The cost of resident hunting licenses is \$1.00 for the county license, which entitles the holder to hunt in accordance with the laws anywhere within the county, but is not good for hunting outside of this county. State licenses cost \$3.00 and are good for hunting in this county or any other county in South Carolina.

The law further provides that landlords, tenants and their children are not required to have a license while hunting upon their own freeholds or leaseholds and landlords may give written permission to a resident of his county to hunt upon his land, in which event the written permission is a substitute for the county license; the said written permission must be carried by the hunter and exhibited to the game warden or any officer upon demand. This written permission cannot be given to anyone residing outside of this county. The holder of a license is not required to have any written permit from the land owner and is at liberty to hunt upon any land where there is no objection from the land owner. The license, however, does not give the holder the right to trespass in any manner.

These licenses can be obtained from any magistrate, hardware dealer, clerk of court or from me.

H. S. Trescott,  
County Game Warden.

## RECEIPTS AMOUNTED TO NEARLY \$4,500

### THAT MUCH MONEY SPENT TO SEE GREAT PICTURE IN ANDERSON

The total receipts at the Anderson theatre during the performances of the "Birth of a Nation" were approximately \$4,500, according to an announcement made yesterday by Manager J. J. Trowbridge.

The heaviest receipts were on Monday evening, the first performance given. The next were on Tuesday evening. Both matinees were shown to capacity houses and if there had been more room at these the receipts would probably have totaled \$5,000.

In this connection it is interesting to note that the "Battle Cry of Peace," a picture similar in some respects to the one just shown here, "It again be presented in Anderson. This picture was shown in Anderson a few months ago, but having not been widely advertised, the attendance was not what it should have been.

## Boys' Spring and Summer Suits

Of the kind which show that we recognize our boys of today as our men of tomorrow

Seems to us, it would be mighty poor policy not to remember that fact always. Seems to us we would be extremely short-sighted if we didn't impress upon boys, through mothers of boys, the fact that this store is a quality store—not a "fussy" store, but a safe store.

And realizing the advantage of having boys grow to be men with a fixed and unchanged impression of this store of good merchandise, we make certain that the clothes in this Boys' Store are the very best that skill, experience and our resources can possibly produce.

That is why we believe you, mothers of boys and Anderson's future men, will be impressed with the good looks, good quality and good workmanship in the following:
